

## PRACTISS Code White Scenario Roles and Scripts

Role	Script
<p>Agitated Patient</p>	<p>You are a 39 year old bipolar woman with a daughter who is currently in your husband's custody. Your daughter was recently hospitalized for pneumonia and discharged a day or two later - she is currently in Thunder Bay visiting her grandma. You arrive at the hospital under the delusion that your daughter is still at the hospital and that the hospital is lying to you about where she is. You become increasingly agitated and violent as the scenario rolls on.</p> <p><b>Stage 1</b></p> <ul style="list-style-type: none"> <li>• You confront the nurses at the nurse's desk, demanding to see your daughter. You are angry and convinced that the nurse is lying to you when she says that your daughter is not here             <ul style="list-style-type: none"> <li>○ Example phrases:                 <ul style="list-style-type: none"> <li>▪ "Take me to my daughter! I know she's here!"</li> <li>▪ "I know he's telling you to hide her from me"</li> <li>▪ "You're lying!"</li> <li>▪ "Stop looking at me like I'm fucking crazy!"</li> </ul> </li> </ul> </li> <li>• They will attempt to verbally de-escalate the situation with you, but you are having none of it. You grow increasingly frustrated and angry.</li> </ul> <p><b>Stage 2 - Physician enters</b></p> <ul style="list-style-type: none"> <li>• When the physician enters, you get much more agitated. You pull out your kitchen knife and threaten both the physician and nurse</li> <li>• If the physician and nurse don't immediately leave the scene within 90 seconds, you attempt to take the nurse hostage to force the hospital to bring your daughter to you</li> </ul> <p><b>Stage 3 - Police Arrive</b></p> <ul style="list-style-type: none"> <li>• Everyone has left, leaving you alone in the ER. You're still agitated and yelling for them to bring your daughter</li> <li>• The police come, and eventually they convince you to drop your weapon</li> <li>• When they attempt to sedate you, if they don't give you a ketamine injection (so if they administer haloperidol or Ativan) then it doesn't work and you remain aggressive</li> </ul> <p><b>Stage 4 - You take the Nurse Hostage</b></p> <ul style="list-style-type: none"> <li>• You grab hold of the nurse and threaten to cut her with your knife.</li> <li>• This one will take some artistic license from you, as how this situation resolves will likely be very different in different settings. Go with what you think seems appropriate as a place to end the scene</li> </ul>
